A PRACTICAL FEATURE OFBRITISH LABOR TO SEND
REPRESENTATIVES HEREWill Attend Dedication of New
Building of American
Federation.

At a meeting of the executive council of the American Federation of Labor yesterday President Gompers reported that he had been notified by the British Trade Union Congress of the appointment of two members of that body as representatives at the dedication of the new building of the federation July 4. It was decided that a member of the council or a representative of the federation will address the convention of the South Carolina State Federation of Labor at Greenville, S. C., the second week in August.

In response to a telegram sent to the representatives of the workers of Mexico in conference at Eagle Pass, Tex., it was announced the delegates will arrive here tomorrow morning.

Investigation to Be Made.

The International Union of Pavers and Rammermen applied for extension of jurisdiction over asphalt plant workers. Secretary Morrison was directed to make an investigation of the matter, action to be taken later.

The representatives of the brewery workers applied for extension of jurisdiction over soft drink bottlers, and it was decided that same be granted, subject to approval of teamsters' union. President Schlesinger of the Ladies' Garment Workers of America, addressed the council in behalf of the 60,000 cloak and suit workers of New York, who have been involved in a controversy with the manufacturers for the past nine weeks. The moral and financial assistance of the American Federation of Labor was pledged to the organization and the men involved in the controversy.

Amalgamation Desired.

President Golden of the United Textile Workers of America expressed the desire of that organization for the executive council to appoint a representative of the federation to hold a conference with the officers of the United Textile Workers of America, the Society of Lace Operatives of America and the Spinners' International Union, for the purpose of arranging some plan upon which these organizations may be amalgamated under the United Textile Workers.

The representatives of the United Hatters of North America, of the Cloth Hat and Cap Makers' international organization, of the United Felt, Panama and Straw Hat Trimmers' Union, No. 14563, given a hearing, at which they presented their respective claims of jurisdiction.

The executive council decided: "That the making of all felt, panama and straw hats for men and women comes under the jurisdiction of the United Hatters of North America; that the finishing and trimming of such hats, through agreement between the United Hatters of North America and the Hat Finishers and Trimmers' Union, comes under the jurisdiction of the Finishers' Union; and that all cloth hat and cap making comes under the jurisdiction of Cloth Hat and Cap Makers of North America."

MGR. JAMES F. MACKIN
HONORED BY HIS FRIENDSPastor of St. Paul's Catholic Church
Holds Reception on 78th An-
niversary of His Birth.

Mr. James F. Mackin, pastor of St. Paul's Catholic Church, celebrated the seventy-eighth anniversary of his birth yesterday. Thousands of his friends and parishioners called on him last night and paid their respects.

The large garden adjacent to the church was decorated with flags forming a cross and the national colors. In an improvised summer house Mr. Mackin received his visitors, one of the earliest of whom was Papal Delegate Bonzano.

During the evening a group of young women served refreshments. Rev. James E. Krug was in charge of the committee which arranged the affair.

Mr. Mackin was ordained forty-eight years ago. He was designated as a missionary ten years ago. He is the founder of St. Paul's Catholic Church, the edifice having been built twenty-eight years ago.

Deaths Reported.

The following deaths have been reported to the health department in the last twenty-four hours:

Lawrence Sands, 72 years, Mendota apartment.

TO GIVE OUT "WAR" NEWS.

MAJ. DOUGLAS MACARTHUR.
Who has been detailed by Secretary Baker to assist newspaper men in getting news concerning the Mexican situation from the War Department.PROSECUTIONS TO WAIT
OFFICIAL INVESTIGATIONDruggists Complain Against Regula-
tion Forcing Sterilization of
Soda Water Glasses.

Prosecutions for failure to comply with the new regulation requiring sterilization of glasses used at soda water fountains will be held up by the health department until an investigation can be made as to the practicability of the requirement.

The regulation becomes effective tomorrow and the investigation, which probably will consume several weeks, will be made by inspectors of the department.

Druggists generally claim that it is impracticable to comply with the reg-

ulation, which requires sterilization by steam or hot water after each use of receptacles in which food, beverages or ice cream is sold. It has been contended that the glasses can be properly cleansed by cold water and that the cost of installing and operating sterilizing apparatus is prohibitive and would tend to increase the cost of soda water.

According to Health Officer Woodward no proof has been presented in support of these contentions, and the department desires to make an investigation to determine whether or not compliance with the regulation is impracticable before entering prosecutions.

Military Academy Bill Passes.

With scarcely any discussion the House yesterday afternoon passed the military academy appropriation bill, carrying \$1,216,761. A fifty-minute period of general debate preceding the discussion of the bill in detail was made use of by political orators to fill the record with campaign speeches.

AID TO WAR SECRETARYIn Case of Hostilities in Mexico
Duty Will Include Censor-
ship of News.

Maj. Douglas MacArthur, U. S. A., whose appointment as an assistant to the newspaper men on duty at the War Department during the present Mexican emergency was announced yesterday, took up his work at the department this morning, receiving the newspaper men at 10 o'clock in place of the audience heretofore given the newspaper men at that hour by Secretary Baker. Maj. MacArthur, who will exercise some of the duties of a censor in case the Mexican situation grows into a state of war, has been given the title of military aid to the Secretary of War.

Regulations Announced.

Rules and regulations for the dissemination of War Department news in connection with Maj. MacArthur's appointment were announced in the following statement issued by the department:

"In order to facilitate the dissemination of military information given out to the press of the country from the War Department, to prevent the spread of false information and to minimize the giving out of information detrimental to the military interests of the government, a temporary division of the office of the Secretary of War is hereby established, to be known as the bureau of information. This bureau will be in charge of the military aid to the Secretary of War. It is to be the sole source of information given to the press from the War Department, except that of a routine nature not bearing upon the present military situation."

Concentration of Information.

"In order that the necessary information may be concentrated in this division, it is directed that:

"1. The adjutant general promptly furnish the officer in charge of the division with all dispatches entering or leaving the department;

"2. That all bureau chiefs promptly furnish copies of all information pertaining to their bureaus dealing with the general military situation;

"3. That at 12:30 p.m. each day, Sunday excepted, each bureau chief submit a statement of any information from his bureau that might properly be given to the press;

"4. That these statements, together with the dispatches, be sent by messenger in sealed envelopes addressed to 'The Military Aid to the Secretary of War, Room No. 232.'"

New Dog Tags to Be Brass.

A shortage in the German silver supply caused by the war will relieve Washingtonians of the necessity of immediately procuring dog tags with the beginning tomorrow of the new fiscal year. The tags now in use are made of this material, but efforts to obtain a supply for the demand of the new year have proved futile. It is probable that the new tags will be made of brass. There probably will be a delay of two or three weeks before the tags can be procured and in the meantime owners will be permitted to use the old tags.

Production of copper in the United States is more than twenty-five times what it was in 1880.

Swedish chemists have found a way to remove from coal tar the finely divided carbon which it holds in suspension.

WHOOPIING COUGH EPIDEMIC.
Sixty-Five New Cases Reported.
Making a Total of 572.

Whooping cough is on a rampage in the District. Sixty-five new cases were reported to the health department today, making a total of 572 recorded. Prosecutions will be entered by the department in all instances coming to its attention of the failure of persons to report whooping cough cases where they are required to do so by law. The penalty is a fine of not to exceed \$100 and thirty days' imprisonment.

Secretary of Labor Wilson began his career in the coal mines of Pennsylvania.

The government of South Africa has erected a large sugar mill to encourage the cultivation of cane in Zululand.

"You need Selinger's eye service."

Eye-strain Causes Headache

If you're subject to headaches let us examine your eyes. We will tell you whether it is due to the need of glasses.

We use the most scientific instruments, which reveal eyesight defects, enabling us to correct them with proper glasses.
